SPECIAL NOTE:

Azure Sphere MT3620 Starter Kit

THANK YOU for selecting this starter kit. Key steps and links are provided here to enable you to start developing applications based on Avnet's certified **Azure Sphere MT3620 modules**.

STEP 1:

Download the Microsoft Azure Sphere SDK from:
aka.ms/AzureSphereSDK

STEP 2:

Install this SDK on a Windows 10 computer, using instructions located at: http://avnet.me/ms_sphere_docs

STEP 3:

Complete the additional steps in those instructions to:

- Set up an Azure Sphere account (and subscribe to notifications)
- Claim your device
- Configure the Wi-Fi settings of your device

STEP 4:

View documentation and download example applications for this Azure Sphere Starter Kit from <http://avnet.me/mt3620-kit>

IMPORTANT PRODUCT INFORMATION

Before using this starter kit, please read the Avnet design kit license and product warranty located at :

<http://www.cloudconnectkits.org/policies>

Use of this starter kit signifies your and your company or organization's acceptance of and compliance with this license.

If you or your company or organization do not accept these license terms, do not open the antistatic bag containing the starter kit or use this starter kit.
